

BusinessIQ

by malbek

BusinessIQ transforms contracts on the world's first Commercial Intelligence Platform. Arm yourself with deep commercial consciousness to uncover risk exposure, know outcomes before they unfold, and command situations others merely manage.

Stop Guessing. Start Knowing.

Prescribed Commercial Insights

See cascading failures, hidden dependencies, and concentration risks in contracts that would blindsides you. Context Threading reveals the patterns buried across thousands of contracts.

Command Every Negotiation

Walk into high-stakes deals with leverage and confidence. BusinessIQ maps your complete commercial relationships across divisions, contracts, clauses, and more. Gain points your counterpart doesn't even know exist.

Make Decisions from Living Intelligence

Trusted insights in minutes! The LiveGraph learns continuously, so you're always working with living contract intelligence, not stale reports that were outdated before they even hit your desk.

Access It All Through Conversation

Ask Bek anything about your commercial universe and get instant, evidence-backed answers. Mesh operations and strategy. No training required. Just ask—whether it's a CLM workflow question or a strategic risk cluster discovery.

Value creation with BusinessIQ

10x faster commercial intelligence

100% confidence with citation tracking

Millions recovered from a single risk cluster

BusinessIQ Features

INTELLIGENCE CORE™

Where your contracts live and transform into commercial intelligence—an active foundation that continuously processes contract data.

CONTEXT THREADING™

Proprietary process that pulls threads of meaning through your Intelligence Core to reveal how obligations, risks, and opportunities cluster across your contract universe in patterns invisible to traditional tools.

LIVEGRAPH™ TECHNOLOGY

Living, breathing continuously learns and evolves with every interaction, predicting risks before they materialize and discovering opportunities you didn't know existed.

INTELLIGENCE MINING™

Mine targeted intelligence from any segment of your contract universe—filter to specific contract types, counterparties, or criteria, then apply expert blueprints to extract fee structures, commitments, risk provisions, and more without prompt engineering expertise.

BEK, UNIFIED COPILOT

Unified conversational interface across both Malbek CLM and BusinessIQ that seamlessly connects operational contract management with strategic commercial intelligence in one conversation.

EVIDENCE-BACKED CITATIONS

Every insight includes complete source citations with exact contract references—export shareable reports your CFO, Board, and auditors can trust with full audit trails and evidence transparency.

CONTRACT CLUSTERING

Fluid data visualization that identifies natural groupings that share commercial meaning—risk concentrations, counterparty relationship, dependency patterns, renewal timing, and strategic opportunities across your Commercial Ecosystem.

COMMERCIAL BREADCRUMBS

Track how contracts and relationships evolve over time—analyze original agreements through amendments and renewals to understand what changed, when, and why it matters.

AUTOMATED OBLIGATION TRACKING

Automatically generate and track key obligations and milestones on contract activation for proactive management of critical commitments and dates.

Malbek is already a Leader in the 2025 Gartner® Magic Quadrant™ for CLM. BusinessIQ makes Malbek the category creator in Commercial Intelligence Platforms, enabling you to gain an ultimate competitive advantage and achieve commercial omniscience.

Commercial Intelligence Platform

Malbek BusinessIQ represents the first true Commercial Intelligence Platform—a category-defining solution that transforms contract management into deep commercial consciousness.

Proven Foundation: Enterprise CLM that manages the complete contract lifecycle.

Intelligence Layer: Context Threading and LiveGraph technology create commercial consciousness.

Unified Experience: Bek seamlessly bridges operational management with strategic intelligence and orchestration agents.
